

# International Young Physicists' Tournament 2015

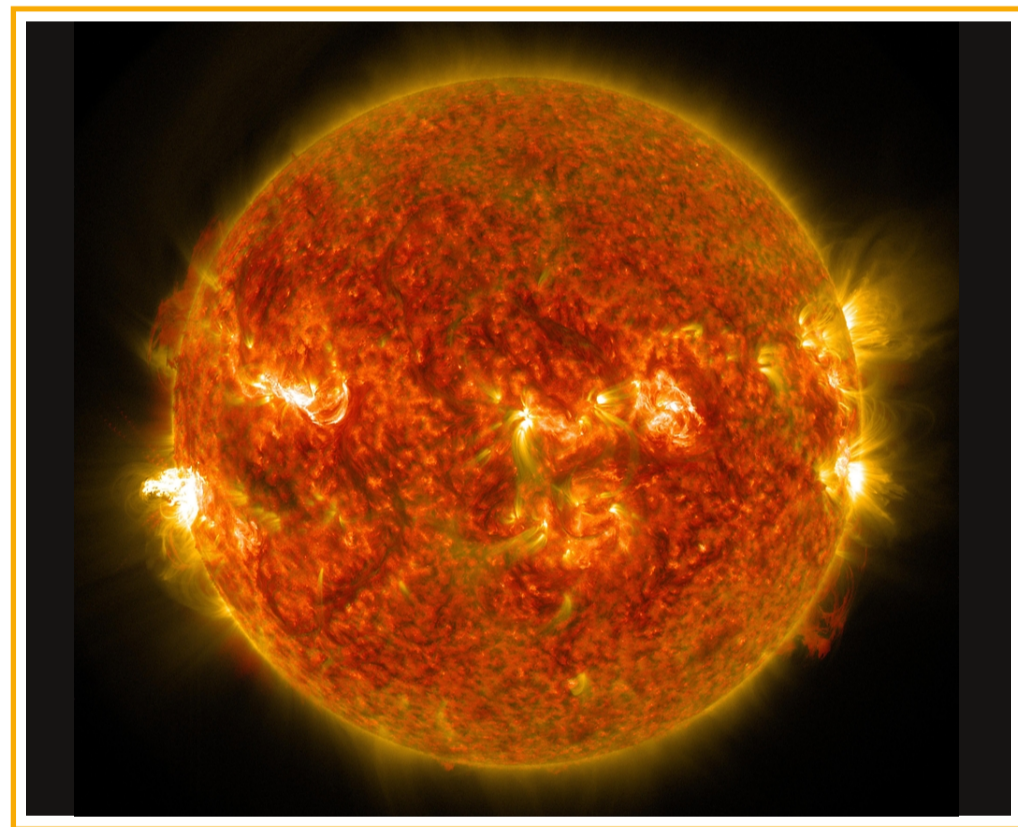

## The Tournament

The IYPT, sometimes also referred to as 'Physics World Cup' is a team-oriented international scientific competition among teams of secondary school students. The Tournament has grown since its establishment in 1988 into one of the World's largest and most prestigious international physics contests with nations from all regions of the World competing annually. In July 2015 the Tournament will be held in Thailand.

Magnetism Optics Smoke convection

Physics of Coffee Pendulum

Singing of Grass Semiconductors

## The Hungarian Team

The national teams consist of five students. During the Tournament the teams compete in 'Physics Fights', where they need to prove their ability to solve complicated scientific problems, to present solutions to these problems in a convincing form and to defend them in scientific discussions. Our team members will be selected during the Hungarian Young Physicists' Tournament (HYPT). The participation at both Tournaments is free of charge.

We are looking for team members who:

- Like physics and solving complex problems
- Speak decent English
- Have good presentation skills
- Like travelling
- Are willing to spend a considerable time on real scientific work

## Got Interested?

Collect additional information:

- Watch the YouTube promo video
- Browse the website of IYPT and find there the problems of the 2015 Tournament
- Consult the HYPT page for details on the application procedure and, of course, don't forget to apply

**The application deadline is 31 October 2014!**
